

Product 1 Proposal

Avery Brown: Directing

- Artifact 1: Script Organization
 - Color coding, sticky notes, sound cues, light cues, blocking, set placement, characterization, edits/line cuts, etc.
- Artifact 2: Casting the Show
 - The cast list and my thoughts throughout the process of casting the show.
- Artifact 3: Cast contact information
 - Spreadsheet of the casts contact information and information about the show (phone number, school email, mentors, technical job(s))
- Artifact 4: Rehearsal schedule
 - Time and place where rehearsals are. I would communicate with Faw to schedule the auditorium for after school rehearsals and to communicate with a teacher to watch over the rehearsals. I would also like to schedule after school rehearsals at a park (if weather permits) to encourage energy and to help with line memorization.
