

Project Assignment 6

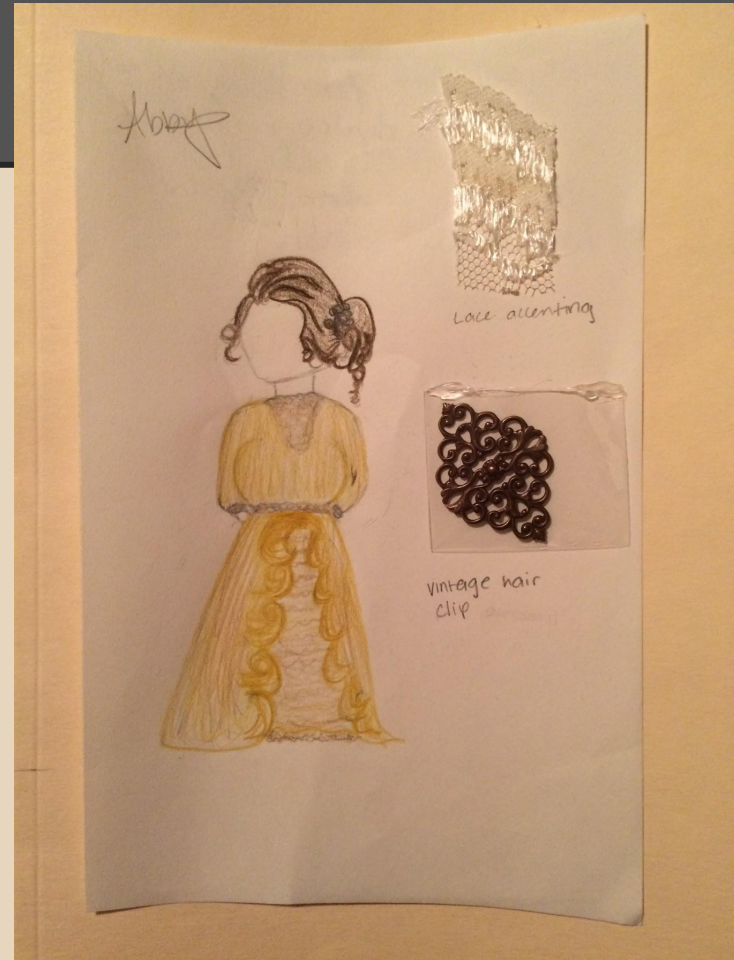

Elaine Harper

This is a costuming sketch for the young Elaine Harper. Included is a suede sample that could accent various places on her suit. Also attached is a prototype pearl jewelry set.

Abby Brewster

This is an everyday lace/victorian style dress that would be worn by the aunts. The samples include a lace trimming as well as a hair clip model.

Martha Brewster

This is a mourning outfit. (I have envisioned both aunts in similar costuming for this as well as the everyday outfit, but pictured to the right is Martha.) The fabric samples include one netting sample (for the veil attached to the hat) and one glove material sample.
